1	BEH	105	Riverview Psychiatric Center	BL-105	BASELINE BUDGET	The Riverview Psychiatric Center (RPC), located in Augusta, Maine, is one of two State psychiatric hospitals under the Maine Department of Health and Human Services. RPC, in collaboration with the community, is a center for best practice, treatment, education and research, for individuals with serious, persistent mental illness. The RPC treats adults who require acute inpatient psychiatric services from all counties. Services are provided without regard to race, creed, color, sex, national origin, ancestry, age, physical handicap or ability to pay. It serves those who require involuntary hospitalization; those who require a secure setting; those who require extended periods of inpatient treatment and/or rehabilitation; those committed under the criminal statutes for observation, care and treatment; and those who require certain highly specialized programs not available elsewhere. RPC is currently licensed for 92 acute psychiatric beds: 48 are for civil patients and 44 for forensic patients. RPC provides outpatient dental, psychiatric and medical services in a hospital based clinic. The hospital also maintains an Outpatient Services Program for those forensic clients who were released from the hospital but are still under the care of the Commissioner. The hospital is licensed by the Department of Health and Human Services and is accredited by The Joint Commission on Accreditation of Healthcare Organizations. 6	BEH	120	Dorothea Dix Psychiatric Center	BL-120	BASELINE BUDGET	Dorothea Dix Psychiatric Center (DDPC) opened in 1901 as an acute psychiatric hospital located in Bangor, Maine and is one of two State psychiatric hospitals under the Maine State Department of Health and Human Services to provide care and treatment for both voluntary and court committed patients as well as outpatients. DDPC is licensed as a 100 bed psychiatric hospital with 51 beds currently operational in three inpatient units with approximately 195 admissions per year. DDPC is one of two psychiatric hospitals providing both civil and forensic psychiatric services to patients.  DDPC is part of a comprehensive mental health system of services primarily in the northern and eastern regions of Maine but also serves patients statewide.  The hospital is governed under the laws established by the Maine Legislature to provide care and treatment for people with severe and persistent mental illness. The hospital has its own Advisory Board with by-laws covering organization, purpose, duties, appointment process, committees and relationship to the Medical Staff. The Advisory Board is chaired by the Commissioner of the Department of Health and Human Services.  The Hospital is licensed by the Maine Department of Health and Human Services, certified by the Centers for Medicare and Medicaid Services (CMS), and accredited by the Joint Commission on Accreditation of Healthcare Organizations. The program provides individualized treatment and rehabilitative services for persons with serious mental disorders in settings most appropriate to their needs and the needs of their families. Services are delivered primarily through performance based contracts with provider agencies, and include community integration, assertive community treatment, crisis services, housing services, residential treatment, in-home support, peer support, medication management and outpatient services. The Adult Mental Health Services Program's functions are performed through the coordinated efforts of central office, district office and institutional capacity.</p> <p>From a program and policy perspective, the Adult Mental Health Program units take a leadership role in defining and implementing the comprehensive system of services and support for adults with serious mental disorders, in conjunction with leadership at the two state operated inpatient facilities, Riverview Psychiatric Center and Dorothea Dix Psychiatric Center both of which have separate Quality Improvement Councils. The Statewide Quality Improvement Council participates in these activities as well. Operationally, services are delivered primarily through performance based contracts. Contracted services include case management/ACT teams, crisis/emergency, housing/community residential/in-home supports, rehabilitation/peer support, outpatient/medication management, inpatient and geriatric. State operated intensive case management services are provided to jails and shelters. 20	BEH	Z183	Bridging Rental Assistance Program	BL-Z183	BASELINE BUDGET	The Bridging Rental Assistance Program (BRAP) is a transitional rental subsidy program developed by the Department of Health and Human Services (DHHS), Office of Substance Abuse and Mental Health Services.Â BRAP has been established in recognition that recovery can only begin in a safe, healthy, and decent environment, a place one can call home.Â People with psychiatric disabilities are often unable to afford to rent housing of their choice in the community.Â BRAP is designed to assist individuals with psychiatric disabilities with housing assistance until they are awarded a Housing Choice Voucher (aka Section 8 Voucher), another federal subsidy, or alternative housing placement.Â All units subsidized by BRAP funding must meet the U.S. Department of Housing and Urban Development's Housing Quality Standards and Fair Market Rents.Â Following a Housing First model, initial BRAP recipients are encouraged, but not required, to accept the provision of services to go hand in hand with the voucher. 27	HUM	137	IV-E Foster Care/Adoption Assistance	BL-137	BASELINE BUDGET	<p>The IV-E Foster Care/Adoption Assistance program provides independent living and adoption assistance for children who are eligible under title IV-E of the Social Security Act. The program has two primary functions under which are several secondary functions:</p> <p>Funding of Board, Care and Clothing: Funds are provided to foster parents, residential care facilities, group homes, other providers, adoptive parents as board payments and for purchase of clothing for children in the care or legal custody of the department or who were subsequently adopted with continuing financial assistance. Funds are also used to provide independent living services to youth approaching adulthood. Rates for board and care and for clothing allowances are established based on legislative appropriations. Specialized foster care rates are approved centrally based on the special needs of the child and the services to be provided by the foster parent. Residential and group care rates are established through a rate setting process. Independent living services are directly delivered by Human Services Caseworkers.</p> <p>Child Welfare Training: Provides for the administration and purchase of child welfare training and expenses of trainers and trainees. Training is developed and/or provided to newly hired staff, current staff, supervisors, managers and providers of service to children served under this program, including foster parents and adoptive parents. The Child Welfare Training Institute provides training through federal reimbursement from Title IV-E.</p>		Children's Services	General Fund	1		\$0	\$0	\$13,588,106	\$13,588,106	-	-	\$13,588,106	\$13,588,106

This program has three primary functions:</p> <p>Funding of Board, Care and Clothing: Funds are provided to foster parents, residential care facilities, group homes, other providers and certain adoptive parents as board payments and for purchase of clothing for children in the care or custody of the Department or who were subsequently adopted with continuing financial assistance.</p> <p>Services and Transportation: In addition to paying for board, care, and clothing for the children who do not qualify for federal funds for these services, the funds provide for various costs for all children in state care or custody including necessary transportation to services. It also pays for adoption assistance for children who do not qualify for federal assistance, usually in the form of a monthly board payment and clothing allowance.</p> <p>Provision of Day Care: Since few two-parent families in Maine are able to meet their needs with only one income, provision of day care services for young children in the care or custody of DHHS is needed in order to expand the number of available family foster homes by adding families where the single foster parent or both foster parents are employed outside the home.</p>		Children's Services	General Fund	1		\$491,528	\$502,048	\$37,545,267	\$37,545,267	8.0	8.0	\$38,036,795	\$38,047,315

Income eligible children who are not otherwise eligible for Medicaid and who meet age and medical eligibility requirements receive subspecialty medical care services. Others who are only medically eligible receive help with medical planning, care coordination, and assistance with schools or other agencies that may affect the outcome of their child's health and development. Contracted agencies provide specialty medical care services to eligible children. Clinics provide comprehensive diagnostic evaluations and re-evaluations to children with or at high risk for developmental delays. Funding comes from the Child Abuse and Neglect Grant and Children's Justice Act Grant, and a matching requirement for the Maine Automated Child Welfare Information System federal funding. The Bureau of Child and Family Services Administration is primarily responsible for the development, delivery and oversight of all activities attendant to Child Protective and Children's Services including regulation of children's foster homes. Absent the bureau, Maine would be unable to begin to meet the mandate of state law and would be unable to access federal funds under the Social Security Act. Bureau administration drafts, implements and monitors all aspects of programs relating to child welfare by way of State Plan for Child Welfare Services. All elements of the state plan must be fully executed in conjunction with federal directives in order to realize federal financial participation in child welfare activities. 47	BEH	731	Mental Health Services - Child Medicaid	BL-731	BASELINE BUDGET	The Mental Health Services - Child Medicaid program provides a clinically appropriate and cost-effective statewide system of services to children in need of treatment/habilitation, in order to improve the mental health and developmental status, level of functioning and the quality of life for children and their families. A major goal is to strengthen the capacity of families through natural helping networks, family support organizations, and other community services and resources that support and serve children and their families in need of treatment. Additional goals are to facilitate planning, coordination, delivery and evaluation of a complete and integrated statewide system of services to children; to provide in-home, community-based, family-oriented services - placing high priority on preventive services, interagency coordination/collaboration and decentralized administrative structures; and to ensure adequate qualified staffing, accessibility, and least restrictive settings consistent with the needs of the child. 331	HOQ	663	Maine Hospice Council	BL-663	BASELINE BUDGET	<p>The Maine Hospice Council and Center for End-of-Life Care is grateful to the State of Maine for continued financial support since 1989. The State's continuing support directly benefits Maine families struggling to cope with difficult end of life stresses. The Council supports volunteer hospice programs throughout the state whose many volunteers provide caring and professional services to families dealing with a dying family member.</p> <p>In 2001 the Maine Legislature directed the Bureau of Health to establish the Maine Center for End-of-Life Care within the Maine Hospice Council. This task brought a wider focus that incorporated all aspects of quality end-of-life care to include pain management. Recognition of the valuable and professional services the Council provides led the Legislative Committee on Judiciary to ask the Council to assume several more responsibilities last year. To address the need for specialized education in pain management the Council, in collaboration with the Maine Pain Initiative and the USM, Muskie School of Public Service wrote and published "Pain Management at the End of Life, A Physician's Self-Study Packet", a continuing education course (3 Category 1 CME) for Maine physicians. The self-study packet was recently cited by FDA as best practices on pain management. One thousand copies are available and are free to Maine physicians and others with prescribing privileges. The Council has accepted and carried out these additional responsibilities though no additional funding from the state was allocated for these tasks.</p> <p>The Council recognizes that the low utilization of hospice services increases costs to the healthcare system. We will continue to strongly advocate for service providers to increase the utilization of the Hospice Medicare/MaineCare Benefit to assist in the reduction of unnecessary costs while at the same time increase quality end-of-life care for Maine families.</p>		HHS Other	General Fund	1		\$0	\$0	\$63,506	\$63,506	-	-	\$63,506	\$63,506

The Health Data Organization implements policies and procedures through the rulemaking process for the collection, processing, storage, analysis, and release of hospital inpatient, outpatient, emergency department, financial, and organizational data and all provider/all payer claims data. These data are made publicly accessible while protecting patient confidentiality and respecting providers of care. While the data are to be publicly available, the organization ensures that no patients are directly or indirectly identified.</p> <p>The Maine Health Data Organization is governed by a stakeholder board of directors comprised of 20 members representing the following interests: 4 consumers, 3 employers, 2 third-party payers, 9 providers (2 hospital, 2 physician, 1 chiropractor, 1 pharmacist, 1 ambulatory care, 1 mental health, 1 home health care), and 2 Department of Health and Human Services.</p> <p>The Health Data Organization receives its revenue through assessments from 4 different groups: hospitals (38.5%); non-hospital health care providers (11.5%); health insurance carriers (38.5%); and 3rd-party administrators (11.5%). Additional revenue is also derived from the sale of data and from contracts with other states to receive and process their own claims data. Any funds not expended at the end of a fiscal year are carried forward to the succeeding fiscal year and are subtracted from the legislatively authorized expenditure amount prior to the computation of the assessments. 363	HUM	Z055	Prescription Drug Academic Detailing	BL-Z055	BASELINE BUDGET	The Prescription Drug Academic Detailing program provides a base allocation for the costs of the prescription drug academic detailing program to be funded from a share of the fees collected from prescription drug manufacturers under 22 MRSA, section 2700-A, Å§4. The program provides for the provision of information regarding prescription drugs based on scientific and medical research, including information on therapeutic and cost-effective use of prescription drugs. The program is intended to enhance the health of residents of the State, to improve the quality of decisions regarding drug prescribing, to encourage better communication between the department and health care practitioners participating in publicly funded health programs and to reduce the health complications and unnecessary costs associated with inappropriate drug prescribing. 378	HUM	131	State Supplement to Federal Supplemental Security Income	BL-131	BASELINE BUDGET	The State Supplement to Federal Social Security program provides payments to beneficiaries of the Supplemental Security Income (SSI) Program. When the federally funded SSI program replaced the Federal-State program of Aid to Aged, Blind or Disabled (AABD) in 1974, payments under the SSI Program were less in most cases than those under the AABD Program. Congress mandated that the states supplement SSI payments with state funds so that no recipient would receive less money under the new program. This account provides state funds to supplement SSI payments received by aged, blind or disabled people living in boarding homes, nursing homes, or in the community. The State has a Maintenance of Effort requirement, i.e. it is required by the federal government to pay at least as much in State Supplemental funds as was paid the previous year or at the highest payment rate for each individual living arrangement. Failure to maintain funding would result in fiscal penalties to the Medicaid program.		Public Assistance	General Fund	1		\$0	\$0	\$6,882,011	\$6,882,011	-	-	\$6,882,011	\$6,882,011

379	HUM	138	Temporary Assistance for Needy Families	BL-138	BASELINE BUDGET	The Temporary Assistance to Needy Families (TANF) program provides cash assistance to low income families with children deprived of support of one or both parents. Eligibility is determined through a comparison of family income and resources to a standard of need for food, clothing, utilities, and shelter. A special payment of up to \$200 per month is provided to families whose selected shelter costs exceed 75% of their income. The TANF account provides the cash assistance for the Parents As Scholars (PaS) Program for low-income families with children deprived of support of one or both parents and one or both of the parents are attending an approved post-secondary educational program. Within this overall account, pass-through and gap payments are made to eligible families. Alternative Aid is a program for families needing resources to obtain or continue employment and may only be received once. This benefit is equal to up to 3 months of TANF benefits. Emergency Assistance is a once a year program for families to eliminate an emergency that stops them from moving towards self-support. The Other Special Revenue fund of this program is dedicated to Child Support Collections, which averaged \$103,000,000 per year in Fiscal Year 2011-15, and Child Support Earned Incentive Income, which funds operations and enhancements of the Child Support Enforcement - Maine (CSEME) system. ASPIRE consists of activities focused on education, training, job development, and job readiness and is an individualized case management approach to assist participants in obtaining employment to support their families. To implement services, the ASPIRE Specialist and the participant develop one to six month contracts, which outlines the parties' responsibilities. This account also provides the funds for the support services and child care for the recipients. The services identified in the contract are provided through vendor payments; purchase of service agreements; financial and non-financial agreements; and contracts with private nonprofit, for profit and public organizations and agencies. 438	HUM	489	Risk Reduction	BL-489	BASELINE BUDGET	Will no longer be in use after Sept 30, 2013: The Risk Reduction program provides assistance to towns in order to improve community health. Training and technical assistance is provided for community mobilization and planning. Some specific community activities include, but are not limited to, tobacco prevention and control, physical activity, nutrition, and cholesterol/hypertension control. Community programs are linked with each other, to the state, and to federal agencies. Currently, there are 20 active sites covering various geographic areas. The Risk Reduction program works with communities to increase their capacity to improve overall health and quality of life. This is done by using a broad definition of health, including citizen participation and local priority setting. A major focus is on community-wide collaboration among organizations, people, and sectors that result in changes to policies, programs, and practices to improve health. Community health assessment and health planning and interventions are major activities. The program supports implementation of the Fund for a Healthy Maine/Healthy Maine Partnerships Community and School Grants.
